About Us

Mehdi Hosseini Design Studio delivers comprehensive design and permit services with over two decades of experience in residential architecture, specializing in luxury custom homes, additions, and multi-unit development.

Hosseini Homes Corporation extends this vision through project management and construction, ensuring each design is executed with precision, efficiency, and exceptional craftsmanship.

Together, we bring every concept from design to completion, blending creativity, technical expertise, and proven results across the Greater Toronto Area and beyond. Our portfolio represents over $400 million in design and construction value delivered to discerning clients throughout our career.

Why us?

+$400 million

in projects successfully handled

+750,000 sqf.

of custom living space created

Our clients benefit from:

+ Efficient project delivery through coordinated design-build management
+ Tailored architectural solutions that reflect individual lifestyles and site conditions
+ Direct collaboration between designers, engineers, and builders for a smoother, faster process
+ Proven expertise in navigating zoning, permits, and construction in the Greater Toronto Area

Our Vision+

At Mehdi Hosseini Design Studio and Hosseini Homes Corporation, our vision is to create unique spaces shaped around the dreams, needs, and lifestyle of each client — homes that are both functional and economical, yet distinctly personal and timeless.

We design and build environments that adapt to the evolving construction industry, embracing new technologies, sustainable practices, and modern building standards while maintaining the craftsmanship and integrity that define our work.

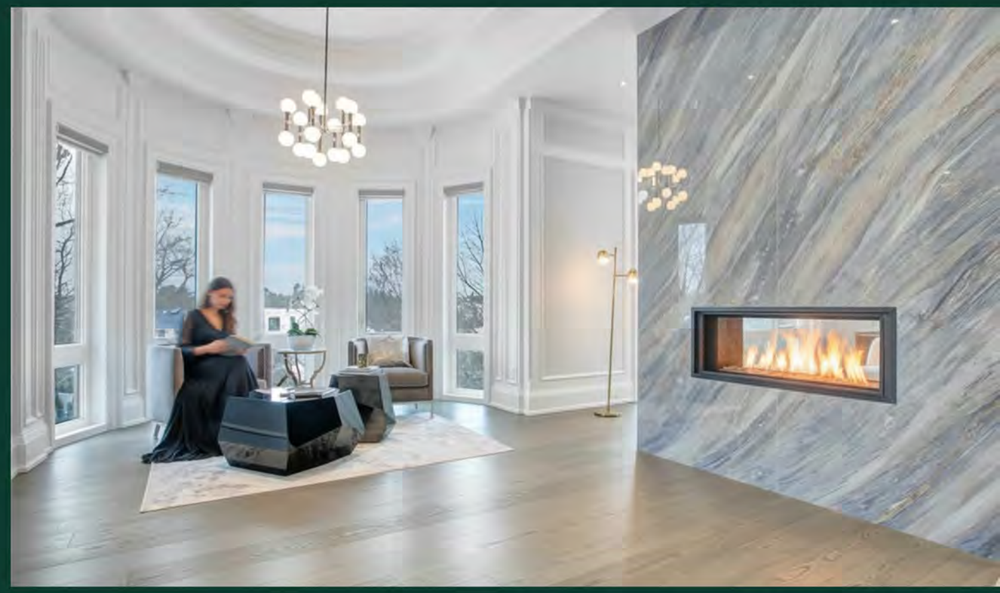
We believe a home should be more than just a structure — it should be a place to enjoy, relax, entertain, and grow within. Every detail, from the first sketch to the final finish, is guided by this vision: to craft spaces that inspire comfort, connection, and long-term value for the people who live in them.

Our Mission+

At Mehdi Hosseini Design Studio and Hosseini Homes Corporation, our mission is to deliver exceptional homes through a seamless design-build process that blends creativity, precision, and practicality under one roof.

By integrating design, permitting, and construction management in-house, we ensure efficiency, transparency, and complete control over quality, cost, and timeline.

We continuously evolve with modern design trends and building technologies, while upholding the craftsmanship and integrity that define our work — creating homes that reflect our clients' vision and stand the test of time.



Our Core Values+

01 Integrity

+ We build trust through honesty, transparency, and accountability in every stage of design and construction. Our word and our work carry equal value.

02 Innovation

+ We embrace creativity and forward-thinking design, integrating new materials, technologies, and methods to deliver modern, adaptable, and lasting homes.

03 Excellence in Craftsmanship

+ From concept to completion, every detail is handled with precision and care. We take pride in the quality of our work and the satisfaction of our clients

04 Client-Centered Approach

+ We listen first. Every project begins with understanding our clients' lifestyle, goals, and dreams — then transforming those ideas into functional, beautiful spaces.

Our Portfolio+

Our portfolio showcases over two decades of design and construction experience across the Greater Toronto Area. Each project reflects our commitment to smart design, efficient permitting, and quality craftsmanship.

With design and construction under one roof, we streamline every stage — from concept to completion — creating homes that are functional, beautiful, and built to last.

This collection highlights our completed and ongoing projects, demonstrating our versatility, creativity, and dedication to excellence.
